

Side Cutters for Buckets

Product Information Bulletin

New Optional Side Cutters Available!

PALADIN LIGHT CONSTRUCTION

- Industry exclusive, exceptional bucket protection and better loading
- Adds 1 inch to bucket bite
For example: a 72 inch bucket with attached side cutters captures 73 inches
- Protects side plate leading edges and corner welds for longer life
- Provides hardened wear surface in high material flow areas and directs flow into the bucket

Optional Side Cutter

Low Profile-Long Floor Dirt Bucket
