Carriages

FLOATING PIN CARRIAGES ALLOWS FOR EASY PICK-UP OF MATERIAL ON UNEVEN SURFACES

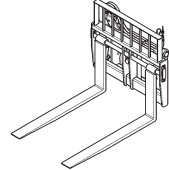

Side Shift Features:

- 48", 66", & 74" widths available
- 4" side shift both left and right to place material in confined areas
- Ideal for distribution centers, yards, etc.

Swing Carriage Features:

- 72" width standard
- 50 degrees left and right to place materials in confined areas
- Counter balance cylinders hold carriage into position when a pressure loss is sensed
- Perfect for framing contractors to swing bundles of material into openings

Side Tilt Features:

- 48", 60", 66", & 72" widths available
- 10 degree side tilt both left and right for leveling material while traveling
- Counter balance cylinders hold carriage into position when a pressure loss is sensed
- Excellent attachment for framing contractors and mason contractors

FORK POSITIONING CARRIAGES

Features:

- 48", 60", & 72" widths available
- 5,000 to 10,000 lb capacities (10,000 is standard)
- 48" to 96" tine lengths available
- Both forks are hydraulically operated to move apart or together for accurate and fast positioning in pallets or pockets

Fork Movement Ranges:

- 48" 41" centers to 9" centers
- 60" 56" centers to 18" centers
- 72" 67" centers to 28.5" centers
